ID NECKLACES

Customers can express their personal style and transform a boring work ID holder into a fashion accessory. Completely functional at work with either the fashion hook (included) or the custom reel (add-on item). Transitions easily to a necklace by simply removing the hook.

HOW IT WORKS

Removable fashion hook turns lanyard into a necklace.

Magnetic

Traditional

Convertible clasp can be worn as a breakaway or traditional jewelry clasp.

Detachable fashion reel converts lanyard to a retractable lanyard.
(see page 16)

CUSTOMIZATION

Custom ID solutions... we make it easy!

“We have carried the ID jewelry line from Bonitas for the last 15 years. The company is wonderful to work with, the product quality is superior and the on trend fashion collections are refreshed twice a year, which keep our customers coming back for more. I highly recommend this product line.”

Anne Sutton, Buyer

LANYARD

Lanyard attachments allow the wearer to hold almost anything they could possibly need. We offer several different attachments in a variety of colors and styles. **MOQ: 288**

BADGE REELS

Offered in a variety of shapes such as heart, square, dome and button. Made of durable zinc alloy, the 360 degree swivel Alligator clip back has been tested to 150,000 retractions. Chrome finish available. **MOQ: 288**

ART GUIDELINES

Recommendations for Best Results:

Supplying artwork in vector formats (Corel Draw or Adobe Illustrator) will produce the best results. Vector files are created using lines and objects allowing them to be scaled to any size without loss of detail. Raster Files (JPEG TIFF BMP) are made from dots which, when resized, are added or removed and result in loss of detail. Any scanned artwork should be done so at the maximum resolution (Minimum 300 DPI). Low resolution images will give poor quality results and may delay your order.

Acceptable Formats:

Adobe Illustrator CC (.ai or .eps), Corel Draw (.cdr), Photoshop CC (.psd) 600 ppi at printed size.

Unacceptable Formats:

- Word files
- Power Point files
- JPEG
- GIF
- Faxes or photocopies
